General Summary.

A meeting of the Band takes place tomorrow evening, at 7 o'clock, at the Court House. A general attendance of members is requested.

"Caustique" was received too late fo this week's issue: it will appear in our next. J. H., King-Your article has been unavoidably crowded out this week.

83- As Friday next has been appointed a day of Fasting and Prayer, by Royal Proclamation, the Era will be issued on Thoraday. Advertisements for the week will have to be handed in by Wednesday noon previous, to be in time for insertion.

We have no news of a successor the late Provincial Secretary, as we go Press, Romor rays, that the bout, thus far, of Mr. Cartier, in the Eastern part of Canada, to find a suitable man to fill the vacancy, has proven an entire failure.

Those of our friends who purchase Boots and Shoes in Toronto, we would recommend them to call at the Establish sent of Mr. J. R. Carroth, Yonge Street, Toionto. He keeps constantly on hand a splendid assortment. See adventisement;

At a meeting of the Committee of the Mechanics' Institute, held recently, we understand arrangements were made for commencing the Lectures the first Friday evening in December next. In all probability the Lectures will commence this season by an inauguiatory address from the President, Col. Rer-

Money is getting easier, to prove this we have only to state, that a man who owed us for an adventisement inserted in the Era doring the year 1853, actually walked into the office this neck and gave us the "shiners." It tickhad us amazingly ; and we at once came to the conclusion that the crisis was over, and wheat fair proposition,-the matter, however, mus would now rise 10-90 cis. per bushel.

Connections,-A couple of errors were inadvertently made in the Essay we published last week, which require correction. In the second column of reading matter, and the paragraph commencing-" I have unt," and in the eighth ime, read " responsible office," instead of "respectable." Also, in the paragraph commencing "on entering," &co ; and at the fourth line, read " mental and moral," instead of " natural."

In another part of to day's paper, we publish something further with regard to Mc-Henry alias Townsend. It now appears that the Editor of the Welland Ilcrald has been hoaxed in reference to a correspondence said to have taken place between some parties and were actually passengers from California in the have, therefore, published both sides of the matter, -the public may judge.

Now, really, is he not a generous soul ? Positively disinterested, so long as the " grist finds its way to his own mill;" but let any body else suggest some other locality, and he is at once charged with "personal considerations," How magnanmious ! He next requests the people of Newmarket to "direst themselves of all lo. cal jealousies." This is the mote he appears to discover in our eyes; but fails to perceive the beam in his own. This reminds us of an oft repeated quotation from Burns:

To the Eliter of the New Era. Sin-I observed by an article in your pape a short time ago, that a " Board of Trade" had been organized in the Village. Some time previous an editorial article and several letters appeared, detailing the duties such a " Board" might preform. Can you tell the public how it is we hear no more of that organization? for one thought to have seen a constitution and By-Laws in print before this time, so that the people might judge of the kind of business they deemed would come under their jurisdiotion. But lo I and behold I all the public know their transactions is-an attempt to shorten the credit system. Very desirable, so far as i goes; what else has the Board done? If meeting were beld, and public notice given thereof, the public could attend and make auggestions on matters of general interest. is we have the name, without the game.
